Connecting Elements

Flying means freedom. Flying gyros means pure freedom. But flying the MTOnautic is limitless.

Equipped with floats, the MTOnautic lands and takes off from water connecting the elements like no other. Maximizing fun and flexibility, the adaptation of the MTOsport is just as free and versatile as it is technically thought-through.

Experience how the MTOnautic gives access to completely new fields of application. No matter if it's in Scandinavia or the United Arab Emirates, or private or commercial basis - the MTOnautic takes you where you want to go.
